

THERMOSHIELD
COMFORT INSIDE. PROTECTION OUTSIDE.

THERMOSHIELD 55

100% Premium Synthetic Heat Transfer Fluid

ThermoShield 55 is our flagship grade; purpose-built for closed-loop, liquid-phase heating systems that run hot and run long. From cold startup to sustained high temperature load, it delivers dependable heat transfer, cleaner operation, and a longer working life for the equipment it protects.

THE THERMOSHIELD DIFFERENCE

ThermoShield delivers premium synthetic heat transfer fluids engineered for superior equipment protection, exceptional thermal stability, and lasting performance.

India's Preferred Choice in Synthetic Thermic Fluids

High Thermal Shock & Stress Resistance

Handles rapid heating and cooling cycles without breaking down.

Strong Oxidation Stability

Slows degradation and extends fluid service life.

Optimized Fluid Velocity

Efficient flow for faster, more even heat transfer.

Cleaner System Operation

Less sludge, varnish and carbon build-up over time.

THERMOSHIELD PROMISE: Built to Perform. Engineered to Last.

THE THERMOSHIELD 55 ADVANTAGE

Consistent Quality, Every Batch

Lab-tested formulation,
the same reliable
performance every time

Non-Corrosive & Long-Lasting

Protects pumps,
pipelines & exchangers
for years of service.

Lower Maintenance, Less Downtime

Fewer shutdowns and
longer intervals
between fluid changes.

OUR QUALITY ASSURANCE JOURNEY

Laboratory Tested

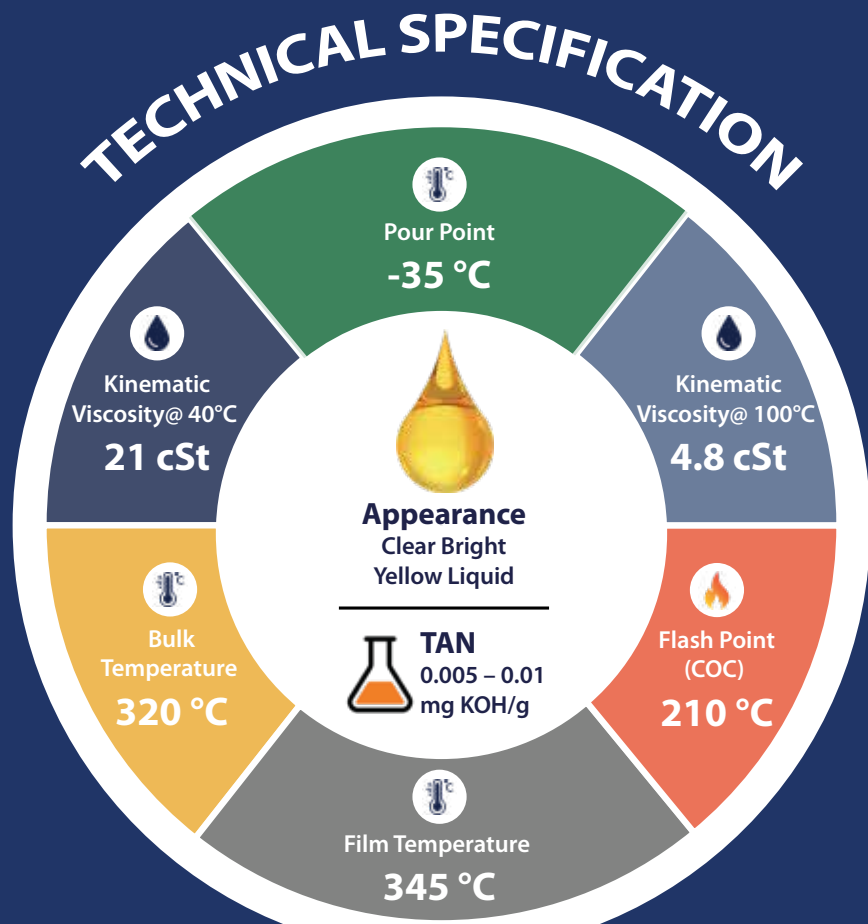

Quality Controlled

Plant Inspection

Cleaning Agent

INDUSTRIES WE SERVE

Chemical Processing

Pharmaceuticals

Food Processing

Textile

Paint & Coatings

Rubber & Plastics

Plywood & Laminates

Oil & Gas

Engineering

Process Heating
